Mill Street	☐ see below ☐ see attached (# pages)	
Will Sheet		
Notes		
Notes: 1. Slope = rise/run, or the elevation change over the driveway length. If your driveway is 100' long and the ground level		
increases or decreases 4' in elevation over the length, the slope $= 4/100 = .04$ or 4%.		

last revised 4/8/14

2. Culverts must be a minimum of 18" in diameter.
